

## Flavour Hop

Bring 3 ltrs of good water to the boil.

- Add flavour hop.
- Boil for 15 minutes.

Pour hop water through strainer into fermenter

- Discard hops.
- Carry on as normal adding kit and enhancer to the 3 ltrs of hot hop water, mix well
- Top up to 23 ltrs then pitch yeast (only if the temperature is under 25°C)

Adding a flavour hop to your beers will enhance a fresh hop flavor and aroma to your kits
